

Unto their Royal Majesties Nicolai Rabenis Von Tachov and Ana de la Sara, King and Queen of An Tir, to their Excellencies Baron Ulrich Hell Licht and Bran Bharun Fiona Ingen Conchobair, and to the populace of our Barony of Vulcanfeldt, we Sir Steinnar Ravensfury and Her Excellency, the Honorable Lady Sergeant Squire Tai Tjorkillsdatr come now to express our intent and wish to become the next Baron and Baroness of Vulcanfeldt.

As we are sure is the case with many hopeful Baron and Baronesses, our primary goal is to grow the Barony, by both reaching out to members who have grown less active over the years and by bring in new members through promoting the fun, the majesty, and the wonder that is Our Current Middle Ages.

We have each been active in the SCA for over 40 years, having lived in the Barony of Vulcanfeldt for that entire time. We have each held multiple offices, have been Marshal-In-Charge and Event Stewards of many events, both local and Kingdom level, been on several Royal retinues, and understand the challenges and responsibilities the positions hold.

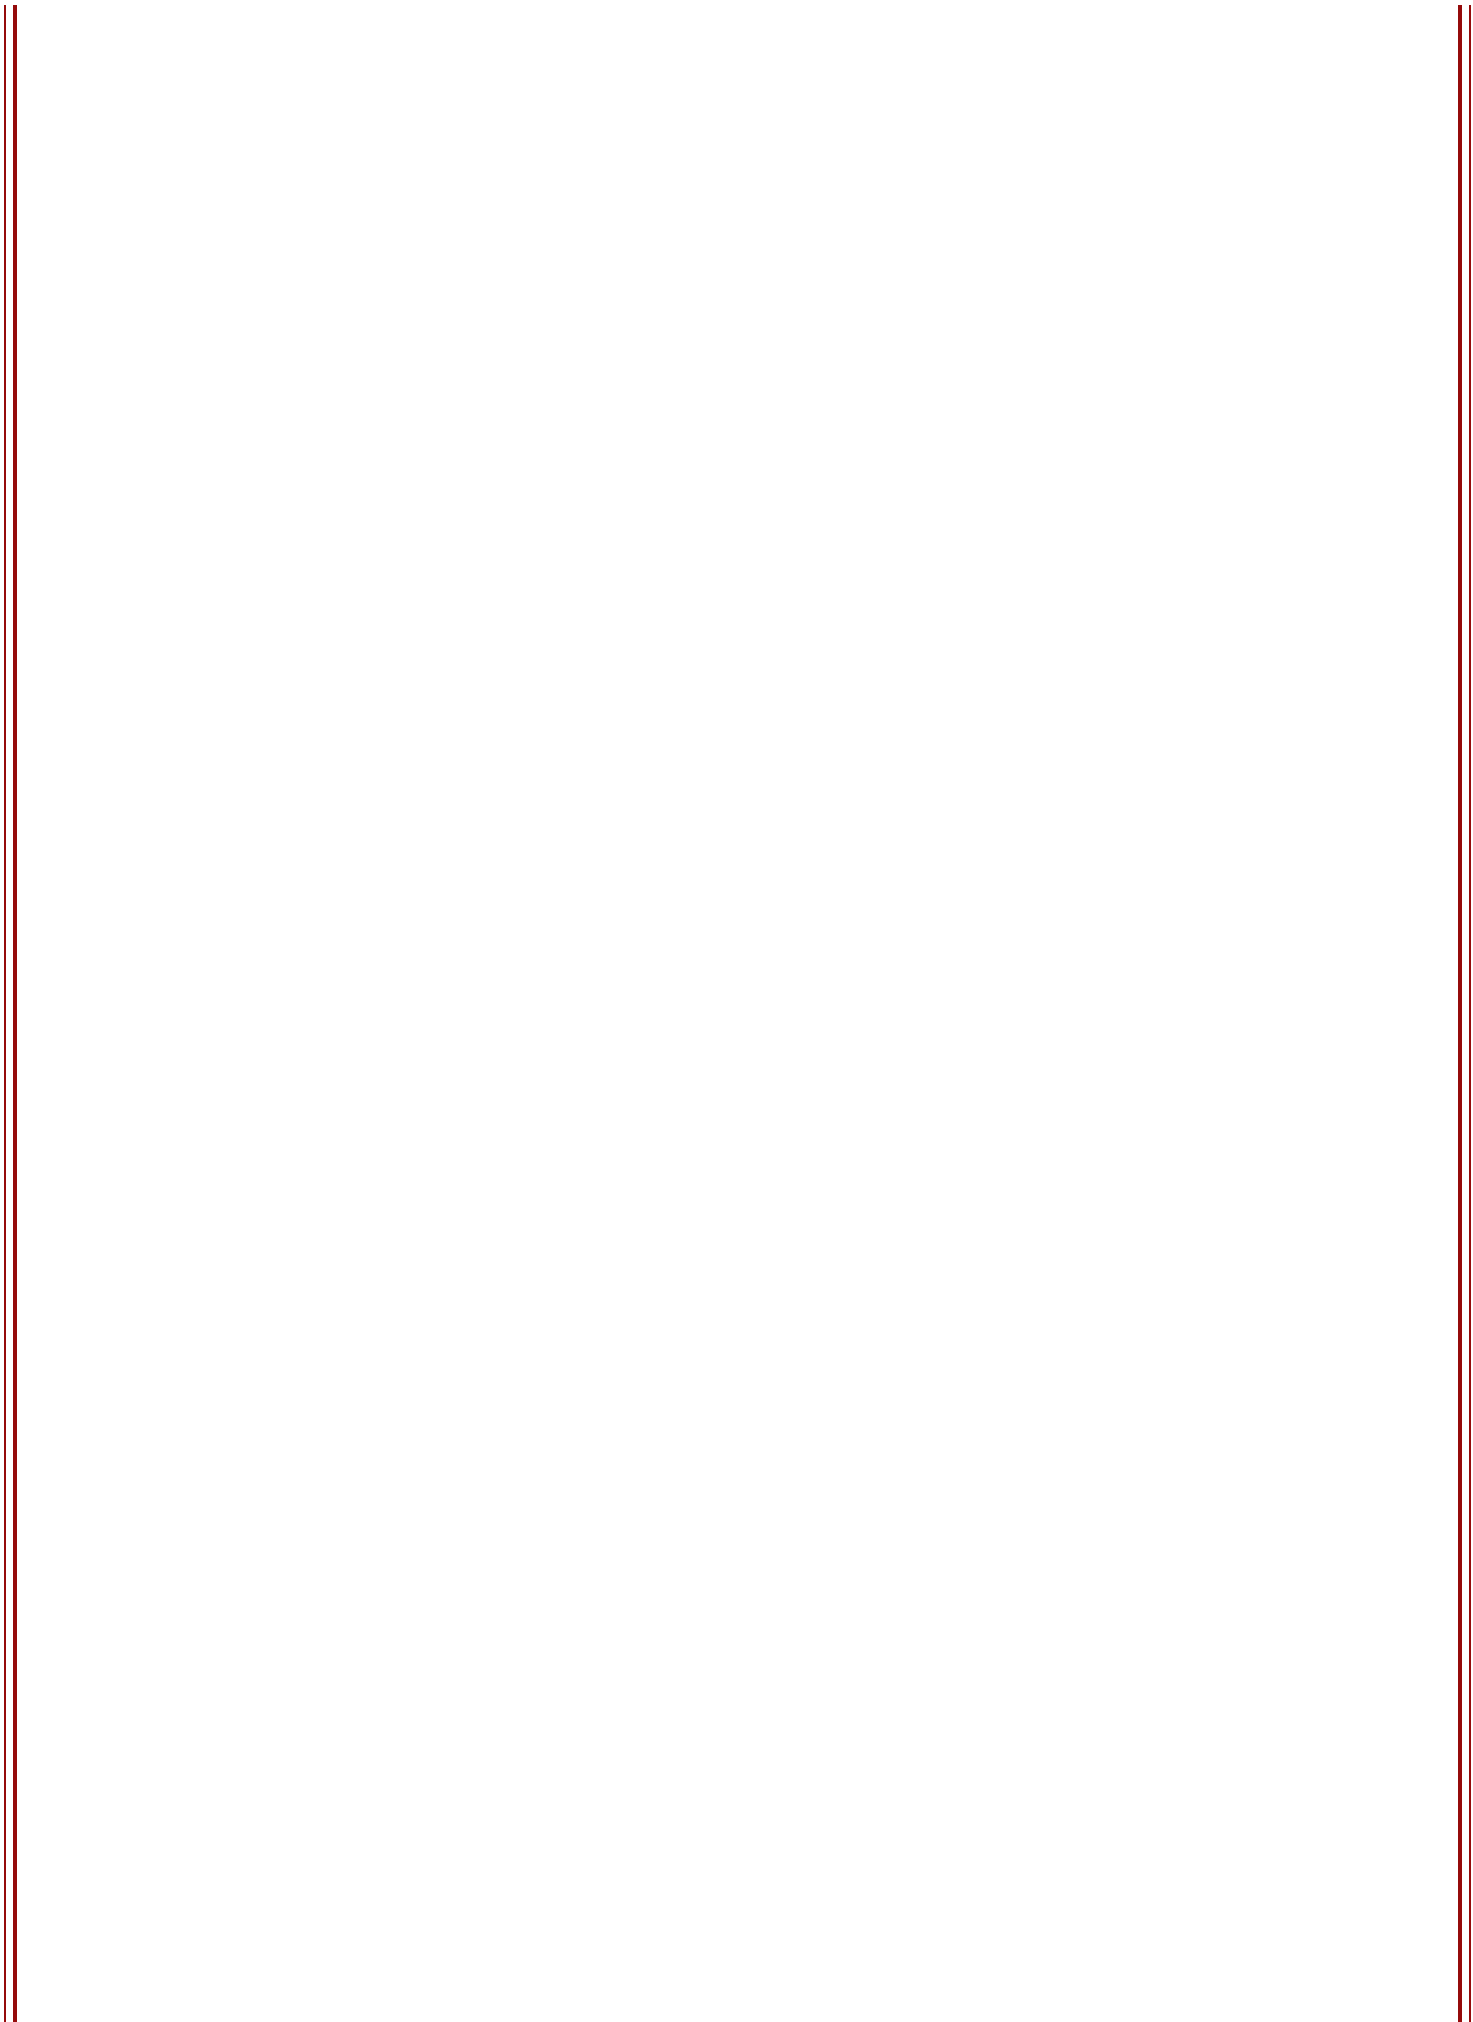

In addition to our SCA activities we both have experience in the modern world that pertains to the duties of Baron and Baroness. Sir Steinnar is a Civil Servant in charge of over 60 lifeguards and the safety of the employees and customers who frequent the pools and parks in our town. He is responsible for the training, scheduling, and performance of the employees. He teaches classes to customers, he promotes the activities and maintains the records required for these positions. HL Tai is a business owner who manages daily operations, hires and trains staff, maintains required records and promotes the business by maintaining good customer relations.

In closing, we acknowledge the Baron and Baroness are representatives of the Crown and must always act in the best interest of the Barony, the Kingdom, and the SCA.

Yours in Service,

Sir Steinnar Ravensfury

Her Excellency, the Honorable Lady Sergeant Squire Tai Tjorkillsdatr

Qoyor Shinqotai (AKA Tai Tjorkillsdatr)
